

Anthony Orrach

Principal Product Designer · UI/UX · Brand & Product

Jacksonville, FL
orrachcreative@gmail.com

ABOUT

Thirteen years at one company. Not because I had to be, but because the work kept getting bigger. I run branding, marketing, and SaaS product design, from early concepts through implementation. I also spent three years freelancing as lead designer for HIGH5, managing a team of designers across multiple countries while holding the HomeASAP role full time. AIGA portfolio award winner and UNF graduate.

EXPERIENCE

Principal Product Designer

2019 – Present

HomeASAP / RatePlug Jacksonville, FL (Remote)

- Owned the design on every major product site: IDX Home Search, Page Engage, Home Value Leads, TurnKey Suite, and more. These account for a large majority of the company revenue.
- Ran the design of the corporate site with a 2-person team. The site includes 18 product landing pages including checkouts and 12 supporting pages.
- Solo product designer on Afordal, a real estate fintech SaaS. Responsible for building the brand, full design system, and designing the CRM dashboard (agents & loan officers), buyer/seller dashboard, and WordPress marketing site within 6 months. UI now serves as the foundation for a commercial real estate SaaS joint venture generating \$55k/month.
- No formal requirements on most projects. Working from business goals, asking the right questions, and utilizing all the tools and strategies at hand.

Lead Designer & Account Manager

FREELANCE

2021 – 2023

HIGH5 Remote

- Primary contact between the CMO and a team of 4–5 international designers. Responsible for creative direction, timelines, and delivery.
- Built HIGH5's brand and led a dev team to build the corporate site. Used as a consulting talent marketplace serving 1,600+ companies worldwide.
- The work covered everything: ad campaigns, social content, video storyboards with animators, internal comms, and large-format signage for conventions.

Senior Visual Designer : Marketing

June 2013 – 2019

HomeASAP Jacksonville, FL

- Joined when the company was small. Contributed across product, marketing, and branding as the product lineup and company grew.
- Learned Facebook advertising, MLS/IDX systems, lead generation, and lead nurture design inside and out. I still draw on all of it.
